Operations Allocation

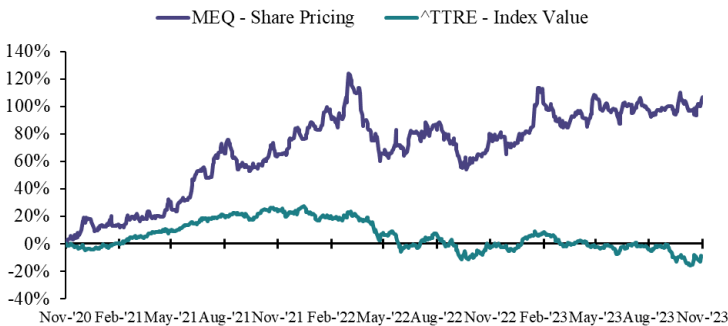

Investment Thesis

Mainstreet is an attractive capital gain investment with a net asset value per share greater than what the share price currently suggests. Mainstreet has growth prospects by regulatory and macroeconomic conditions, access to low-cost-of-debt financing, and a sizable liquidity position to support accelerated pursuit of opportunity. Calculated blended target price and implied return support buy recommendation.

Company Overview

Mainstreet Equity Corp (TSX: MEQ) is a Canadian real estate firm specializing in the acquisition and management of mid range rental apartment complexes, primarily located in Western Canada. Established in 1997, the company has been traded on the Toronto Stock Exchange since 2000. Mainstreet’s value creation strategy revolves around acquiring underperforming properties, upgrading them to meet a standardized brand, optimizing operational processes, and strategically repositioning them in the market to achieve higher returns.

Growth Investment Strategy

In Q3 2023, Mainstreet realized double-digit, year-over-year growth across its key operating metrics for the seventh consecutive quarter.

Seventh Consecutive Quarterly Double-Digit Growth

Y/Y Q3 2023 vs. Q3 2022

Outlook

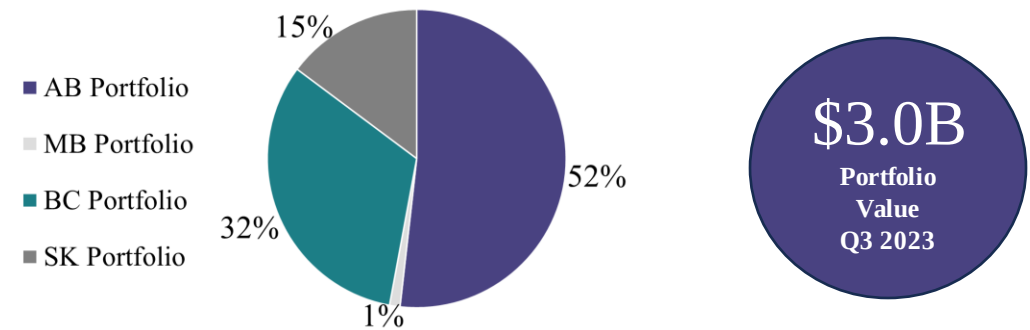

- Demand outpaces supply – Mainstreet continues to strive to provide supply to meet demand for mid-market rental properties.
- Accelerated opportunistic acquisitions – Mainstreet will continue to leverage access to low-cost financing and liquidity position to outperform competitors.
- High stabilization rates and lower-than-average vacancy rates provide substantial opportunity in aggressive repositioning of units.
- Lower than average rental rates solidify Mainstreet as a key provider of affordable housing – Demand for affordable housing is increasing.
- Opportunities in government collaboration, additions to business model, and geographical diversification.
- Strategies in place to address interest rate fluctuations.
- Valuation methods lead to buy recommendation.

Company Overview

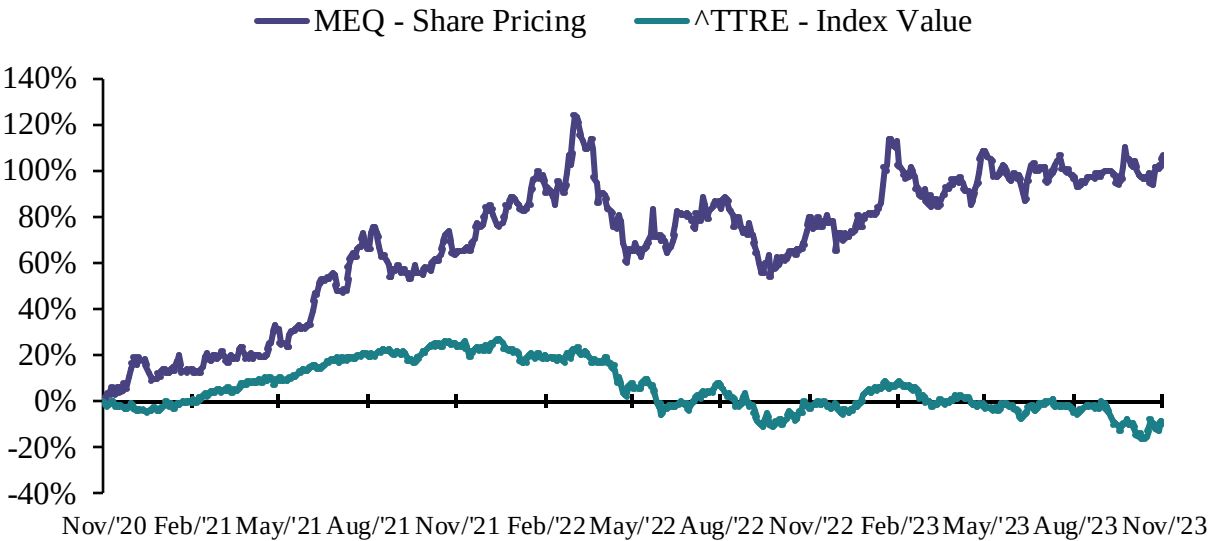

About: Mainstreet Equity Corporation (TSX: MEQ) is a Canadian real estate operating company (REOC) headquartered in Calgary, Alberta. Established in 1997, the company has been traded on the Toronto Stock Exchange since 2000. Mainstreet is a small-cap company that engages in the acquisition, redevelopment, repositioning, and management of distressed, mid-market rental apartments in Western Canada.

3-Year Share Performance: As at market close on Nov. 20, 2023, MEQ has realized a 98.50% increase in share price, while the S&P/TSX Capped Real Estate Index has realized a (7.12%) decrease in index value over the same 3-year horizon.

Asset Segmentation

Share Performance v. Capped Index

Key Metrics

Share Price	\$139.94
Market Cap	\$1.30B
Net Debt	\$1.49B
NAV	\$1.70B
ROA	4.27%

Business Model

Business Model

- Non-dilutive growth strategy.
- Minimal share dilution through the exercising of stock options.
- Shareholder value creation throughout economic cycles – Including periods of high volatility.
- Leverages \$307M liquidity position and low-cost financing for acquisition of distressed assets.
- Rapidly repositions units through renovations to optimize operating income.

Mortgage Structure

Avg. Interest	Description	Debt (\$millions)
2.69%	Fixed CMHC Insured	1,560
3.47%	Fixed Non-CMHC Insured	15
2.69%	Total	1,575

**Staggered maturity schedule*

**100% of MEQ mortgages are at fixed long-term rates*

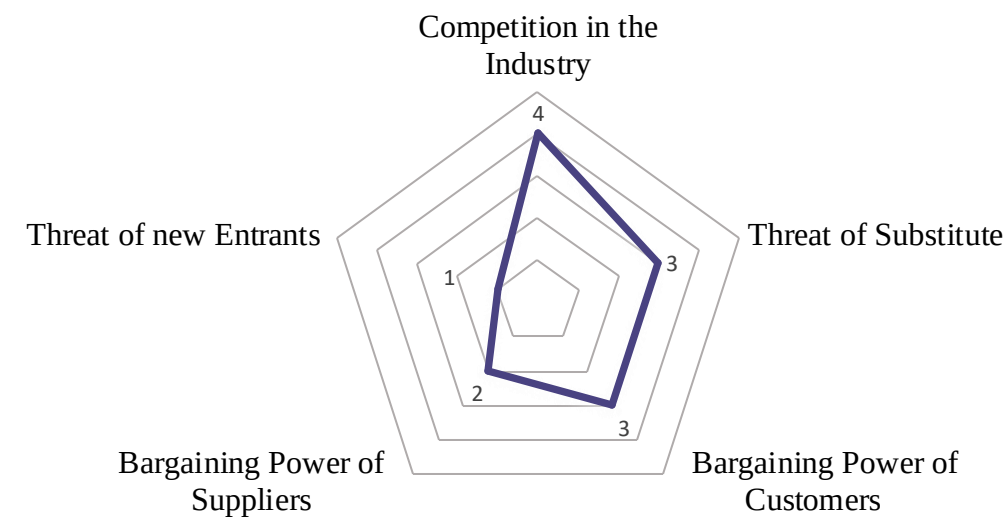

Shareholder Value

- Direct capitalization method to determine a fair value.
- Organic, non-dilutive growth since inception.
- Aligned shareholder interest: Director and management ownership ~49%.
- REOC structure allows for retainment of cash flow for flexibility in property acquisitions and organic growth; Strategic investment for investors seeking capital gain.
 - Zero-dividend policy.

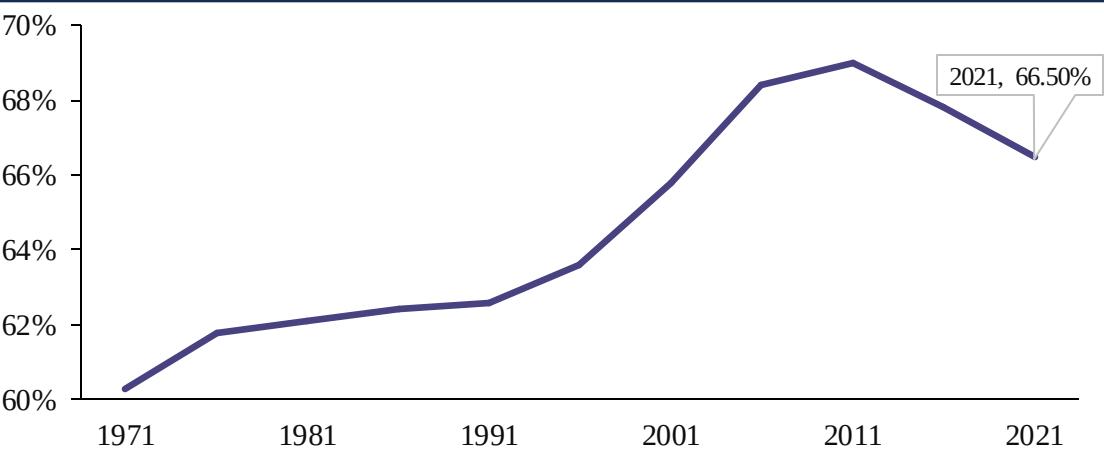

Market Overview

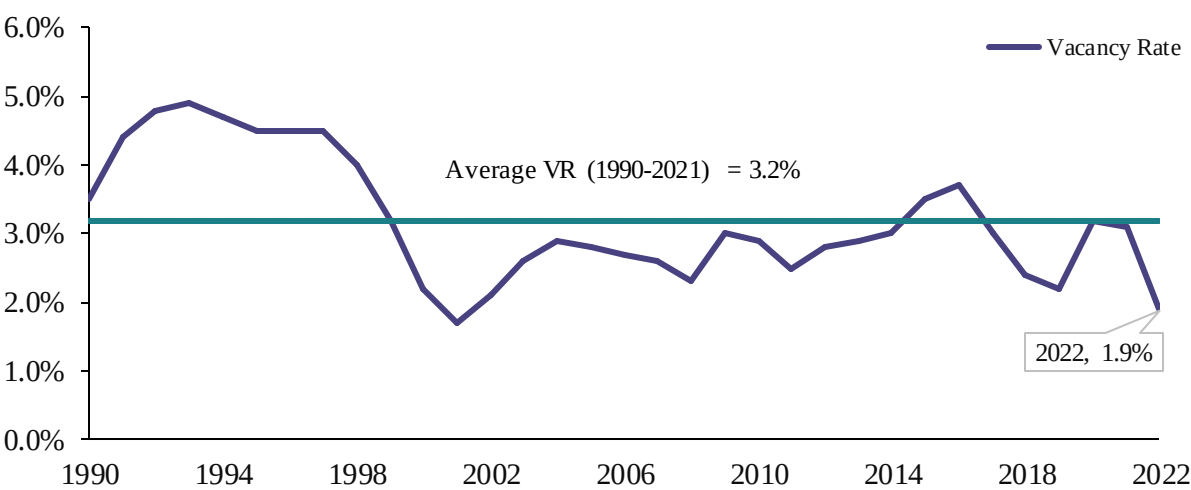

Competitive Outlook

Homeownership Rate (%)

Vacancy Rate, Purpose-Built Rental Apartments (%)

Porter's Five Forces

- Threat of New Entrants** – The real estate industry often has high barriers to enter including substantial capital required to acquire and develop properties
- Bargaining Power of Suppliers** – Both construction suppliers providing material for the upscale of MEQ's properties, and property management services hold favorable influence over MEQ
- Bargaining Power of Buyers** – Primary buyers are tenants with their bargaining being influence by pricing, availability of units and overall quality of the properties
- Threat of Substitutes** – High threat of substitutes with various individual investors and companies conducting similar business models and strategies in buying underpriced units
- Rivalry Amongst Competitors** – MEQ competes with other real estate companies, property management firms, and property developers in the Canadian real estate market

NOI Factors

- **Stabilization:**
 - As at Q3 2023, 14% of properties are unstabilized.
 - Once stabilized, NOI, vacancy rates, and FFO will improve.
 - Stabilization takes 2-3 years subsequent to acquisition.
 - The discrepancy between Mainstreet's higher-than-average stabilization rates and lower-than-market-average vacancy rates provide opportunity to bring in more NOI through stabilization process.
- **Rent Increases and Vacancy Rates:**
 - Management claims every 1% drop in vacancy rate equals \$2.3M increase in NOI.
 - Management claims every \$10 adjustment in monthly net rent equals \$2.0M adjustment in NOI.

Value-Add Case: Mainstreet Estates, Surrey, BC (331 units, 5 buildings)

Interest Rates

- **Increases in Prime Rates:**
 - If prime lending rates increase, rental market realizes greater demand with consumers veering away from mortgage obligations.
 - Mainstreet's mortgage-structuring strategy allows for continued acquisition to keep up with demand while keeping interest payments manageable.
 - Supplying demand while maintaining debt strategy will cause an increase in operating metrics across the board.
- **Decreases in Prime Rates:**
 - If prime lending rates decrease, rental market may realize less demand with consumers more willing to enter housing market.
 - However, low interest rates pose an opportunity for Mainstreet to take on preliminary debt to finance future projects or refinance mortgages.
 - Mainstreet's interest rate risk mitigation strategy provides opportunity in both cases.

Demand Outpaces Supply

- **Demand Factors:**
 - Population growth – Canada has experienced record high population increase from 2022 to 2023, with an influx of 1,050,110 people mainly attributed to immigration. Population expected to reach 57 million by 2068.
 - Business cycle – Inflation and high interest rates continue to deter home buyers and incentivizes rental.
 - Affordability – Mainstreet's dedication to providing affordable housing at rental rates below market average will continue to drive vacancy rates down as tenants seek affordable housing options.

Major City Zoning Changes

Calgary – Sept. 15 zoning changes to the default zoning type, allowing for missing-middle housing such as duplexes, row houses, and mid-rise apartments. Development around Green Line transit infrastructure could pose significant opportunity for Mainstreet.

Edmonton – Oct. 16 zoning changes allow missing-middle housing up to eight units in any residential area citywide starting next year.

Regina – Oct. 26 city council applied for funding which, upon approval, could grant up to \$36.2 million, driving 1,100 building permits for housing units. Zone changes would encompass construction of new buildings or additions to existing.

Saskatoon – Nov. 24 city council looks to make zoning changes improving application for federal housing grants. City councilors voted in favour of making amendments.

Vancouver – Sept. 15 zoning changes aim to allow the development of multiplexes in current low-density areas.

Winnipeg – Nov. 23 council approval of zoning changes to access federal housing grants. Notion includes allowance of multi-unit housing up to four-stories.

The trend of Mainstreet's operating cities implementing zone changes to solve housing problems pose major opportunity for Mainstreet to accelerate acquisitions or implement property development into its business model, prompting expansion of its portfolio.

East-Bound Expansion

- Currently no operational presence in Eastern Canada.
- Large target market in Eastern Canada.
- If Mainstreet were able to maintain a good operating margin and keep expenses relatively low, geographical expansion could be beneficial across operating metrics.
- Expansion would grow NAV and with no share dilution, could provide value to shareholders assuming positive NOI and low vacancy rates.

Government Collaboration

- Opportunity for Mainstreet to collaborate with federal or provincial governments to attain grants or financing in lieu of meeting housing-based initiatives.
- Most grants require rapid acquisition, affordable housing innovation, or proposal of a solution to solve housing supply issues.

Economic Uncertainty

- Worldwide and regional economic growth slowdown.
- Capital market uncertainty.
- Financial hardship of tenants can increase frequency of rent default.
- Pending or future government initiatives can increase operating costs.

Interest Rates

- MEQ is exposed to interest rate risk at the extent of any revision in prime rates.
- Increases in rates increase cost of debt for MEQ.
- Can pose a challenge in determining when to take on mortgage loans.

Liquidity

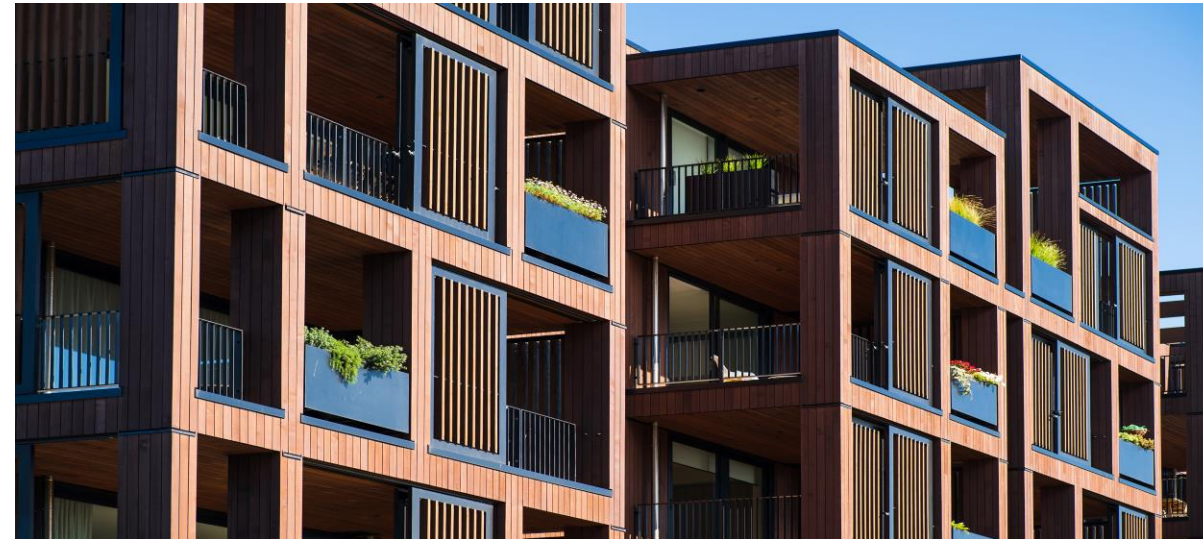

- Encountering difficulties in meeting financial obligations is a liquidity risk.
- Investment in real estate is relatively illiquid and is dependent on demand.
- Inability of MEQ to divest itself of certain properties promptly.
- Legal or contractual restrictions on resale of properties.

Regulatory Changes

- Future changes in regulations or their enforcement are unpredictable.
- Increases or revisions of any tax division can adversely affect operating costs.
- Rent control legislation can go against strategy and determination of rent rates.
- Inability to adjust rent freely to address higher operating costs can reduce cap rate of properties.

Mitigation Plans

- **Economic uncertainty:** MEQ conducts credit checks and requires security deposits to create a safety net, with current security deposits totaling \$6.8M and rents due amounting to \$765K.
- **Interest rates:** CMHC insurance, staggering of maturity dates, and constant monitoring of interest expenses to ensure that payments can be made.
- **Liquidity risk:** Monitoring of cash flows to meet expected operating expenses, matching maturity profiles of assets and liabilities.
- **Regulatory changes:** Taxes addressed by higher rent rates, rent control addressed by adjusting forecast assumptions on new acquisitions to ensure reasonability.

Bob Dhillon

Founder, President & CEO

- 23-year tenure.
- MBA from the Ivey Business School at Western University (1997-1998).
- ICD.D from the Rotman School of Management (2020-2021).
- Honorary Doctorate of Laws from the University of Lethbridge (2019).

Trina Cui

Chief Financial Officer

- Responsible for the complete financial oversight of the company.
- Joined MEQ in 2008 and served several roles before taking the CFO role.
- CPA-CGA designation.
- Bachelor of Commerce (High Honours) degree from Carleton University (double major in Accounting and Finance).

Governance & Team Engagement

- Diverse and gender-balanced executive leadership team with a well-rounded and experience Board of Directors.
- Multiple committees created including an audit committee, executive committee, human resources committee, risk management committee, safety committee and a cyber security committee.
- Competitive medical benefits, short and long-term disability plans, and life insurance plans.

Environmental

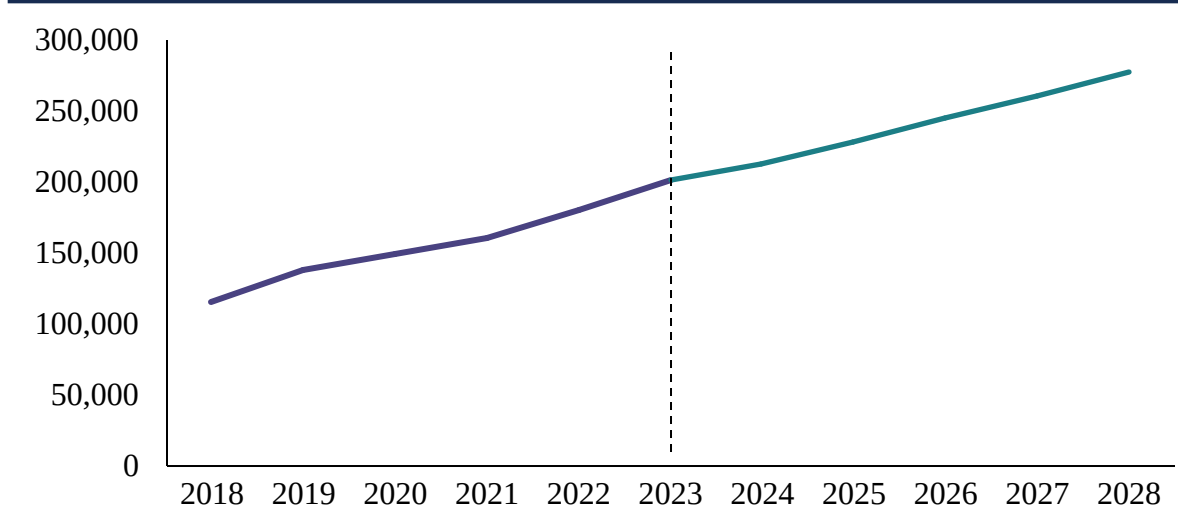

- Adopting a policy to obtain a Phase 1 environmental report for newly acquired financial buildings committing to implementing recommendations wherever possible to improve environmental practices.
- Utilizing LED lights to decreases energy consumption.
- Low flush toilets and water conserving shower heads to decrease water consumption.
- Replacing windows, roofs, sidings, old appliances and boilers with new energy efficient alternatives .
- Cluster house strategy, buying apartment buildings near bike paths, bus stops and train stations.

Social Community Investment

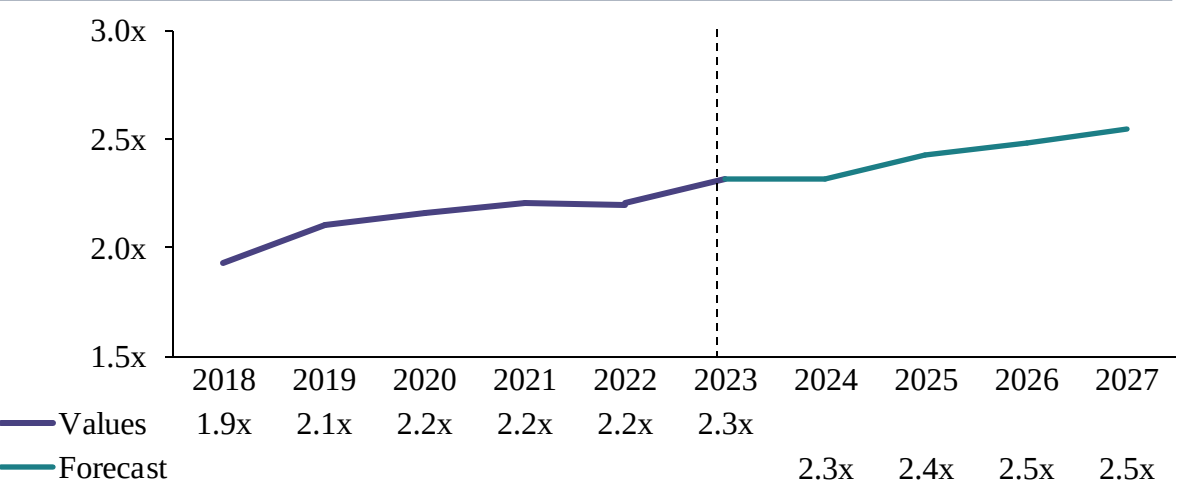

- Participating in various housing assistance programs designed to assist those who have lost their homes due to natural disasters.
 - Syrian, Afghan and Ukrainian refugees.
- Partnering with various social organizations throughout Calgary to provide affordable housing.
 - Calgary Housing, the Mustard Seed and the Homeless Society.
- Working with various social assistant programs to provide food donations and install food banks in Mainstreet's buildings.
 - Calgary's Love with Humanity Association.

Portfolio

- The entirety of MEQ's portfolio is located in Western Canada with large holdings in Calgary, Edmonton and Saskatoon
- MEQ has a significant market share in multiple operating cities:
 - 28% Surrey, BC; 21% Abbotsford, BC; and, 15% Saskatoon, SK
- MEQ is an add-value consolidator in the mid-market multi-family apartment market
- MEQ provides housing for 25+ universities and colleges throughout Western Canada
- Constantly active in new property assessment and acquisitions

Western Canada Major Allocation

Source: Company Filings

Cluster Strategy

- Mainstreet utilizes a cluster strategy, dispersing several apartment buildings across a target five-block radii.
- Reduces HR cost due to fewer resident managers required.
- Establishes strong local brand recognition, cutting advertising costs.
- Reduces required maintenance personnel for properties.

Federal Housing Initiatives

Affordable Housing Innovation Fund

Loans, forgivable loans, contributions and financing options that support housing innovation across the housing continuum.

Community (social) housing

Funding to increase capacity and support in the community housing sector.

Federal Lands Initiative

Surplus federal lands and buildings available for affordable housing development.

Funding for Indigenous housing

Funding opportunities for housing construction and renovation on and off reserve.

Housing Accelerator Fund

Incentive funding for local governments to boost housing supply.

Housing Supply Challenge

\$300 million in funding to break down barriers affecting housing supply.

Innovation and research

Funding opportunities to promote excellence in housing innovation and research.

National Housing Co-Investment Funding

Construction loans and contributions

National Housing Strategy Project Profiles

Encouraging innovation and technology to create affordable and livable communities for people living in Canada.

Rapid Housing Initiative

Capital contributions for the rapid construction of new housing and/or acquisition of existing buildings for rehabilitation or conversion to permanent affordable housing.

Rental Construction Financing Initiative

Low-cost loans encouraging the construction of sustainable rental apartment projects across Canada.

Shared Equity Mortgage Providers Fund

Helping Canadians achieve affordable home ownership.
